Subject: Parking & Safety Issues Coolgarten Park

Dear Mr Hawkins,

As you are aware we, as residents, have major issues with indiscriminate parking of cars in our area (cars literally abandoned overnight).

See attached photograph taken 7.45am this morning.

No refuse collected in the cul de sac section of Coolgarten Park today because of these cars parked overnight. The Country Clean truck was unable to access this section of the park.

What's much more important is that there was no access to emergency services for our residents houses. This is becoming more and more worrying and frustrating. I met the girl who owns the mini cooper and explained the situation to her and her excuse was she had no where else to park last night and but that's not much consolation.

We would be obliged if you could assist us in any way forward as this is becoming a more serious (safety) issue week by week.

I will forward some more photos from different angles. in a further email.

Yours sincerely,

Aidan Cahill

Secretary Magazine Rd & Surrounding Areas Resident's Association
