

Dear Aidan.

The Strategic Economic Development & Planning SPC is currently meeting via the City Council online portal. The Cork City Development Plan 2022-2028 is being discussed and will be launched into the public domain for public consultation from tomorrow. The process will take 18 months for the document to be finalised so plenty of time in this regard.

I have raised the need for the Development plan to include safeguards that will protect residential community's in and around 3rd level education campus facilities in so far as bringing in controls and measures to offset the number of independent rental properties in these areas.

This will present an opportunity for your association and others to have your say through your submissions on the issues that you are experiencing and providing solutions to offset same.

Please also be advised that the (Intoxicating Liquor drinking on the street committee) is due to meet shortly to look at the current by laws.

Regards,
Cllr. Paudie Dineen,
(Independent)
Cork City Council.
086 026 9266.
